

K-love serves my community in a unique way! I live on an island off the coast of Alaska. We have only about 5 radio stations, including am and fm. K-love is the only station in the middle of this wilderness that provides any Christian music!

There are hundreds of teens and their families in this community that listen exclusively to k-love! If this station were displaced by LPFM and other programming, it would be a huge loss! I should also mention that it is almost impossible to buy Christian music on CD where we live. The music on K-love helps this community battle the constant threat of depression one faces when living in the dark North. The positive message K-love offers helps keep the teens of this community looking beyond their everyday crises and "blues" so common at that age.

The service provided by K-love keeps our community on the upbeat! Losing this station would be a huge blow. Please do not do anything that would jeopardize our listening to K-love.
